You can use your child safety seat as follows:

1. Press the button...

Belt guide colours
For better differentiation, the two vehicle seat belts are highlighted in different colours. The diagonal seat belt (18) is dark red and the lap belt (19) in bright red. The colour of the belt guides on the child safety seat follows the same colour scheme.

Removing the seat cover
1. Moving the headrest of the vehicle seat into the top position.
2. Unlock the cover hooks (10) on the rear of the backrest (7).
3. Remove the upper part of the cover.
4. Unlock the cover loops (11) at the bottom on the rear of the backrest (7).
5. Pull off the cover from the seat cushion (12).

Removing the headrest cover
1. Unlock the cover loops (11) on the back of the headrest (6).
2. Unlock the cover hooks (10) on the front of the backrest (7).
3. Pull off the cover of the headrest (6).
4. The cover can now be washed. Please observe the instructions on the washing label of the cover:
5. Proceed in reverse order to put on the cover.

4. USE IN THE VEHICLE

In the direction of travel yes
against the direction of travel no
with 2-point belt no
with 3-point belt(3)
yes
on front passenger seat yes
on outer rear seat yes
on centre rear seat (with 3-point belt) yes

1) Use is permitted on a rearward-facing vehicle seat (e.g. in a van or minibus) only if the vehicle seat is also approved for use by adults. The seat may not be in the area of effect of an airbag.
2) The safety belt must be approved to ECE R 16 or a comparable standard (see test label on vehicle seat).
3) If there is a front airbag: Slide the vehicle seat a long way back and refer to any instructions in the vehicle owner’s manual.
4) Cannot be used if the vehicle seat is equipped with only a 2-point belt.

DANGER! The child seat must not be used without the seat cover.

5. CARE AND MAINTENANCE

Please ensure that you only use the original BRITAX RÖMER replacement seat covers, as the seat cover is an integral part of the child safety seat and fulfils important functions to ensure the smooth operation of the system. Replacement seat covers are available from your dealer or an ADAC office.

• The cover can be removed and washed with a mild detergent in the delicate programme of the washing machine (30 °C).
• The plastic parts can be cleaned using soapy water. Do not use any caustic cleaning agents (such as solvents).

DANGER! The child safety seat must always be secured when it is in the vehicle, even if no child is being transported.

6. DISASSEMBLY AND DISPOSAL

UNFASTENING YOUR CHILD:
1. To unfasten your child, use the release button of your vehicle seat buckle.

REMOVAL:
1. Operate the release button of your vehicle seat buckle.
2. Pull out the diagonal belt (18) from the dark red belt holder (2) on the headrest (6).

DANGER! The child safety seat must always be secured when it is in the vehicle, even if no child is being transported.

DISPOSAL:
Please observe the waste disposal regulations in your country.

Disposal of packaging Container for cardboard boxes
Seat cover Residual waste, thermal utilisation
Plastic parts According to the labelling in the corresponding container
Metal parts Container for metals
Belt straps Container for polyamide
Buckle and tongue Residual waste
7. SAFETY NOTES

• To avoid damage, ensure that the child safety seat is not jammed in between the vehicle seats.
• When swivelling up the backrest, all heavy or sharp-edged objects in the vehicle (e.g. on the parcel shelf)
• the backrests of the vehicle seats are locked (i.e. that any foldable rear seat bench latch is engaged).

DANGER! For the protection of your child:

- Never lubricate or dust the adjustment handle.
- Never leave your child unattended, while the child safety seat is in the vehicle.
- All springy belts must be loosed to ensure that your child’s body is properly.
- All persons in the vehicle have their seatbelts fastened.

WARNING! For your protection when handling the child seat:

- Never use the child safety seat free-standing, not even for test sitting.
- When swelling, the headrest section is not positioned between the headrest (5) and the seat cushion (6). You or your child could pinch your fingers, injuring them.
- To avoid damage, ensure that the child safety seat is not jammed in between hard objects (car door, seat rails, etc.).
- Keep the headrest safety seat in a safe place when it is not in use. Do not place any heavy objects on the seat and do not store it directly next to sources of heat or direct sunlight.

CAUTION! To protect your vehicle:

- Certain car seat covers made from more sensitive materials (e.g. velour, leather, etc.) may sustain signs of wear and tear when using child safety seats. For optimum protection of your car seat covers, we recommend using the BRITAX RÖMER car seat protector from our range of accessories.

8. ADJUSTING THE HEADREST

A correctly set headrest (5) ensures that the diagonal seat belt section (18) is optimally positioned, and gives your child optimum protection. The headrest (5) must be adjusted so that there is a space two fingers wide between the headrest (5) and your child’s shoulders.

To adjust the height of the headrest to fit your child:

1. Grip the adjustment handle (6) on the back of the headrest (5) and pull it upwards. This unlocks the headrest.
2. You can now move the unlocked headrest (5) to the desired height. As soon as you release the adjustment handle (6), the headrest (5) will lock into place.
3. Place the child safety seat on the vehicle seat.
4. Have your child sit down in the child safety seat and check the height. Repeat the procedure until the headrest (5) has the correct height.

9. INSTALLATION

With 3-point belt

The KID II is not installed permanently in the vehicle. It is simply secured together with your vehicle’s 3-point seatbelt.

1. Carry out the steps in Section 8 “ADJUSTING THE HEADREST.”
2. Place the child seat on the vehicle seat. Ensure that the backrest (5) is flush with the backrest (5) of the vehicle seat. 
   Tip! If the headrest of the vehicle seat gets in the way, turn it to the other way.
3. Carry out the steps in Section 10 „SECURING YOUR CHILD“.

10. SECURING YOUR CHILD

1. Have your child sit down in the child seat.
2. Pull out the vehicle belt and guide it in front of your child to the vehicle seat buckle (19).
   DANGER! Ensure the vehicle belt is not twisted, as otherwise the full protective effect of the retaining system is not ensured.
3. Engage the buckle tongue in the vehicle seat buckle (19) with a CLICK!

4. Place the diagonal seat belt section (18) and lap belt section (17) on the side of the vehicle seatbelt buckles (19) on the side of the seat cushion (6) of the seat cushion (6). 
   DANGER! The vehicle seatbelt buckle (19) must not be positioned between the light red belt guide (17) and the armrest.

5. Also place the lap belt section (17) on the other side of the seat cushion in the light red belt guide (17). 
   DANGER! The lap belt section (17) must lie as low as possible over your child’s hips on both sides.

6. Guide the diagonal seat belt section (18) into the dark red belt holder (6) of the headrest (5), until it lies completely in the belt holder (6) and is not twisted.
   Tip! If the backrest (5) conceals the belt holder (6), you can adjust the headrest (5) upwards. The diagonal seat belt section (18) can now be easily inserted. Now return the headrest (5) to the proper height.

7. Make sure that the diagonal belt (18) runs over your child’s shoulder, and not in front of his or her neck.
   Tip! You can still adjust the height of the headrest (5) again here in the vehicle.

8. Tighten the vehicle seat belt by pulling on the diagonal seat belt section (18).

DANGER! The diagonal seat belt section (18) must run diagonally backward. You can adjust the course of the belt with your vehicle’s adjustable belt deflector.

DANGER! The diagonal belt (18) must never be directed forwards to the belt deflector on the vehicle. In this case, use the child safety seat on the back seat only.

For the safety of your child, before every journey in the car check that...

- the child safety seat is securely fastened;
- the lap belt (17) runs in the bright red belt guides on both sides of the seat cushion (6);
- the diagonal seat belt section (18) on the side of the vehicle seatbelt buckles (19) runs through the light red belt guide (17) of the seat cushion (6);
- the diagonal seat belt section (18) runs through the dark red belt holder (6) of the headrest (5);
- the diagonal seat belt section (18) runs diagonally backward;
- the strap is tight and not twisted;
- the seatbelt buckle (19) must not be positioned on the red belt guide (17) in the seat cushion (6);

DANGER! If your child tries to open the vehicle belt buckle (19), stop the vehicle as soon as safely possible. Check whether the child safety seat is correctly fastened and ensure that your child is correctly secured. Explain to your child the dangers associated with his actions.

UNFASTENING YOUR CHILD AND REMOVAL:
To unfasten your child or to remove the child safety seat, observe the steps in Section 6 „REMOVAL.“ [PAGE 1]
